AN OUTBURST OF ACTIVITY

Whole Stock Market Carried to a Higher Level and Short Interest Routed.

BEARS ARE DRIVEN TO COVER

Their Buying an Important Influence-Close Active and Firm at Near the Top.

(By Associated Press.)
NEW YORK, Jan. 21.—The influences which have been gathering force for some time in the stock market caused an outburst of activity and strength toany, which carried the whole market to a ligher level and routed a large and obstinate short interest. The rush to cover shorts was an important influence in carrying some of the most active stocks upwards, and the speculators, who

stocks upwards, and the speculators, who were long on these stocks, were able to take their profits at the capense of their bearish brethren. The movement was without any important new develogments beyond those that have been under discussion for several days.

There was a tondency towards crystallization of the belief that war between riussh and Japan is likely to be averted for the present. The growing volume of the demand for bonds has made an impression upon the speculative mind as a usual precursor of an improvement in the buying of stocks, and the continued neavy accumulation of money at this center adds to the belief that the demand for bonds is likely to extend to the stock list.

Yesterday and to-day the bull campaign

conter adds to the belief that the demand for bonds is likely to extend to the stock list.

Yesterday and to-day the buil campaign appeared under such anapices as to implicit the uncovered bears with the rest that its progress might extend beyond their means to oppose it. The covering demand was very neavy from various outside points. The leadership in the market operations was rather clearly traceable to several sources, which have been imposing influences in great market movements of the last few years, and the prestige of this leadership helped to demoralize the bears.

There was commous profit taking threughout the day, at first in stocks which have led the preliminary advance before to-day. These included Southern Patific, Rock Island, Reading, the Erles, Amalgamated Copper and United States Sicel preferred. Later, when some of these laggards were brought into the movement, the profit taking shifted to stocks which had advanced in the early pair of the day.

Beculative hopes were expressed of a large diversion of profits of cotton speculation into stocks, and the initiation to stocks which had ensured in the leader of the cotton speculation into stocks, and the initiation to stock exchange membership of the leader of the cotton speculation mass an appropriate feature of the day.

The market closed strong, retaining a very fair proportion of the day's advance. The influence of the Western crowd was felt up to the close, and the floor truders who had sold during the day on the idea that the market was going ahead too fast were inclined to cover in the last half hour.

REV. MR. MASON BETTER

Hopes to be Able to Return to His Work in March.

His Work in March.

The Rey, Landon R. Mason, rector of Grace Episcopal Church, of this city, who has been absent for several months on account of ill health, is much better, and expects to return to his work in March. He will be continued, to be assisted for some time by the Rev. James W. Morris, D. D., who is highly esteemed by the congregation of Grace Church.

Captain Willard Accepts. Lieutenant-Governor Willard has writ-ten Secretary G. T. Shepperd, of the Jamestown Exposition Company, the fol-

Jamestown Exposition Company, the following letter, accepting the position of director of the company, to which he has just been chosen:
"Your notification of my selection as director of your Exposition reached here some days ago. This delay is due to my absence from the city. I accept the honor the association has done me, and regret that I was unable to be present with you last evening."

SEVEN COWS WERE BURNED IN FIRE

Barn and Stable of Mr. A. F. Mosby Destroyed Early Yesterday Morning.

terday Morning.

Fire early yesterday morning entirely destroyed the barn and stable of Mr. A. F. Mosby, at Fourth Avenue and Logan Street, Chestnut Hill. The conrants of the building, including seven fine cows, were lost in the fames.

The origin of the line is entirely unexplained, and is supposed by many to have been, incendiary. The blaze was discovered about 2 A. M. by Mr. Mosby's hired man, who had previously inspected the place and found everything in proper condition. A horse and three vehicles were removed in time, but everything else, including hay, feed, harness and the seven cows, was lost. The Richmond chemical service responded promptly to a request for assistance, and did excellent work in preventing the flames from spreading to the house, in which Mrs. Mosby was ill at the time.

It is estimated that the loss will amount to \$1,500 or \$2,000. There is no insurance.

TOBACCO MEN STIRRED UP

Movement by A. T. Company to Control New England

The independent tobacco manufacturers of Richmond are thoroughly stirred up over what is being blazed through the North as an attempt on the part of the American Tobacco Company to monopo lize the trade of New England, up this time the chief field for the output of many of the local concerns.

So far as can be gathered from the reports that have come to hand and from publications made in northern nowspapers the attempt has assumed the form of a movement by the American Tobacco Company to force the Jobbers and sub-jobbers of Boston and vicinity to cease jobbers of Boston and vicinity to cease handling tobacco, cigars and cigarettes manufactured by independent firms. In the outcome of this movement the Richmond manufacturers are directly and vitally concerned. The independent firms of whom mention is made are themselves. The great volume of this business is poured into New England. If the trust succeeds in corraling the jobbers, the Richmond independents will be cut off from this fruitful field and left high and dry, to go out of the tobaccomanufacturing business if they don't like it.

like it.

LOCAL FIRMS CONCERNED.

The movement is one of vital interest to the independent tobacco manufacturers of Richmond. If fine reports are true the American Tobacco Company manifestly wishos to secure the jobbing business of New England, and through this the trade at large, Heretofore this New England trade has been largely managed by the local independent factories—J. G. Dill & Co., Larus & Co., Wright-Surburg, Hancock & Co., Halpin-Newcombe & Co., United States Tobacco Co., R. A. Patterson & Co., and others. If the trust succeeds, and New England outlet to their brands will be cut off, and they will be disastrously crippled. Hence they are not a little stired up over the matter.

"I buy hundreds and thousands of pounds of tobacco here every year," said one of the most prominent manufacturers yesterday, "and all of it goes to New England after it is put up. To stop this trade would be a serious blow to usvery serious. We are hoping that where they pitched tea overboard many years ago they will now pitch the trust overboard." LOCAL FIRMS CONCERNED.
